
BOOK ONE · THE RESILIENCE TRILOGY

Aquaponics Made Practical

A Step-by-Step Guide to Growing Fish and Food Together

by Stanton

A hands-on guide to raising fish and growing vegetables in one connected system. Stanton wrote it from his own working setup in Las Vegas, so readers get plain, practical steps for building a system that feeds the family.

- Beginner-friendly, step by step
- Desert-tested in a real Las Vegas home
- Book One of a series, so readers come back for the rest

ABOUT THE AUTHOR

Stanton spent his career running data centers, the critical systems that keep the internet running. Now he applies the same redundancy thinking to food, water and family preparedness at his home in Las Vegas.

FOR BOOKSELLERS
